

Biosketch

Koen Raemdonck, Full Professor, Ghent University (Belgium)

Koen Raemdonck obtained a PhD in Pharmaceutical Sciences in 2009 at Ghent University, Belgium. In 2016, he started as assistant professor at the Ghent Research Group on Nanomedicines where he was promoted to full professor in 2021. Currently, Prof. Raemdonck is a member of the Executive Council of the recently established Controlled Release Society (CRS) BeNeLux and France Local Chapter and group leader within the Cancer Research Institute Ghent (CRIG). The work of Prof. Raemdonck is mainly focused on exploring novel bio-inspired approaches for delivery of macromolecular therapeutics across intra-and extracellular biological barriers. To continue his research on intracellular delivery of RNA drugs he was recently awarded a prestigious ERC Consolidator Grant.

ROBERTA CENSI – SHORT BIOGRAPHY

Dr Roberta Censi, MPharm, PhD

<https://orcid.org/0000-0002-7036-1990>
[Scopus Author ID: 16202150600](#)

Roberta Censi is Associate Professor at the School of Pharmacy of the University of Camerino and co-founder of Recusol, a spin-off company of the same University. She is currently coordinator or PI of several European grants and coordinator of the doctoral curriculum in Pharmaceutical, Nutraceutical and Food Sciences. Her research interests cover various aspects of the formulation area, with a primary focus on the design and synthesis of macro to nanoscale delivery systems for controlled/targeted release, tissue engineering, imaging, and bioremediation.
